2. Make Entry in services file as below and save the file.

3. Open SAP GUI and create new entry.

4. Select connection type as Group/Server Selection and make entries as below.

Create New System Entry

Choose the connection type and change the system parameters as required. Leave the description field empty if you want the system to propose a description. Buttons 'Next >' and 'Finish' are only active when all required input data has been entered.

Connection Type: Group/Server Selection

System Connection Parameters

Description: AAI PRODUCTION ECC

System ID: PE1

Message Server: AAIDLECCCI.AAI.AERO

SAProuter:

Group/Server:

Instance Number:

☐ Use this page as the first page for subsequent entry creations; setting takes effect immediately

Help Cancel < Back Next > Finish

- Now Click on Group/Server, you will get a dropdown list of available groups. AAIECCGRP1 and AAIECCGRP2 are the two groups to be selected
